Riverside Cardiology and Diagnostic Imaging, we are dedicated to providing exceptional healthcare services to our community. With a commitment to patient-centered care, we have been serving the West end of Toronto and the Etobicoke area for 10 years, and our reputation for excellence continues to grow. Our mission is simple yet profound: to improve the health and well-being of every patient who walks through our doors. We believe that healthcare is not just about treating illnesses; its about lasting relationships, offering support, and promoting wellness in ever aspect of life.

Position Summary

The **Physician Assistant (PA)** will have the opportunity to work in a clinical setting supporting a team of physicians and health care providers. A formal orientation program and mentorship from designated physicians will be offered. The responsibilities of the Physician Assistant will be as follows:

- Patient assessments including full history and physical examinations
- Ordering of investigations including labs and imaging
- Initiation of treatment including but not limited to pharmaceuticals, as delegated by a physician
- Formulation of a disposition plan with discussion with a physician
- Administrative tasks including review of abnormal labs and imaging reports
- Option to engage in quality and research programs
-

The successful individual will be required to work day shifts (Monday-Friday)

Qualifications

- Graduate of a Physician Assistant Program (Canadian)
- Certified by the Physician Assistant Certification Council of Canada
- Eligible to work in Canada/Ontario
- Demonstrated ability to communicate effectively and with respect in an oral and written format with patients, public, colleagues and other health disciplines
- Demonstrated ability to perform complete and appropriate clinical assessment and development of a treatment plan in accordance with medical directives
- Proficient and appropriate use of diagnostic and procedural skills
- Demonstrated effective problem solving and critical thinking skills
- Demonstrated and proven ability to work in a collaborative care model with all members of the health care team
- Demonstrated ability to perform well in critical and high stress situations
- Demonstrated commitment to continuing education activities supporting ongoing professional learning
- Demonstrated commitment to patient safety
- Demonstrated ability to apply basic computer skills
