Windsor Sleep Disorders Clinic, Windsor, ON
Position opening for a permanent full-time/part time Physician Assistant

The Windsor Sleep Disorders Clinic is a 15 bed Independent Health Facility which serves a geographic location with a patient population of approximately 550,000. The clinic performs 12-15 diagnostic and therapeutic sleep studies on each of the 7 nights of the week or 362 days of each year. In addition, MSLTs and some daytime sleep studies (for night shift workers) are performed on at least 2 days every other week.

Essex County Respiratory Services and Essex County Diagnostic Services are also Independent Health Facilities which work in conjunction with the Windsor Sleep Disorders Clinic. These facilities are located in Tecumseh and LaSalle respectively. Both of these facilities provide pulmonary function testing and in addition Essex County Diagnostic Services provides radiography, ultrasound, vascular ultrasound, bone mineral density, and mammography testing. These diagnostic facilities are available to any member of the healthcare team working at the sleep disorders clinic when testing in addition to sleep studies is indicated.

The Windsor Sleep Disorders Clinic is seeking to add permanent full-time or part time physician assistants to work in collaboration with the 3 physicians at the facility.

This is an excellent opportunity for a physician assistant interested in the practice of sleep disorders medicine to join an established, busy, well-respected practice.

All applicants must be registered and licensed with the Canadian Association of Physician Assistants.
